

REPUTATION EMBEDDED IN QUALITY AND RELIABILITY

PAN MIXERS SOUTH AFRICA (PMSA) IS ONE OF THE LARGEST SUPPLIERS OF CONCRETE BRICK, BLOCK AND PAVING-MAKING MACHINERY AND TECHNOLOGY IN AFRICA, OFFERING A COMPREHENSIVE RANGE OF PRECISION BLOCK, BRICK AND PAVING-MAKING MOULDS MANUFACTURED BY GERMAN-BASED RAMPF.

According to Quintin Booyesen, PMSA Marketing and Sales Manager, RAMPF offers a wide range of products ideally suited to PMSA's client base. "RAMPF manufactures internationally recognised concrete moulds, paving and building bricks, kerbstones, concrete planters, dry-wall systems and building brick, block and paving moulds which add substantial value to construction and building projects where precast products are specified and used," he explains.

Furthermore, a wide range of RAMPF products is available through PMSA, including: paver moulds; concrete moulds; CSI diamond exchange hollow block

>> CSI DIAMOND HB EXCHANGE MOULD

moulds; and vibration table controllers. "The technology used in these moulds offers numerous advantages for clients, particularly longer wear life which is important in the precast market," explains Quintin.

He believes that the RAMPF range available from PMSA is ideal for any local concrete moulding application where clients are seeking longer lasting moulds and the highest precision. ■
