CONCRETE READY-MIX

Ready-Mix Batching Plants and Ready-mix Trucks

TECHNICAL SPECIFICATION SHEET:

SUMMARY

PMSA supplies a comprehensive range of concrete ready-mix batching plants and ready-mix trucks which are **Built to Last®**, ensuring a low cost of ownership and operation and resulting in increased profit.

PMSA has partnered with IMER, leaders in concrete ready-mix batching plants ranging from mobile solutions (25 m³/h) to top-of-range fixed solutions (over 150 m³/h capacity), with planetary mixers for smaller plants (less than 60 m³/h) or twin shaft mixers for larger plants.

To complement the batching plants, we offer ready-mix trucks with drum capacities of 6 m³ or 8 m³ suited for both wet and dry batching plants.

FEATURES AND BENEFITS

The features and benefits of the concrete ready-mix batching plants and ready-mix trucks include:

Ready-mix batching plants

- The plants are pre-assembled and pre-wired, reducing installation time.
- Compact design reduces the plant's footprint.
- Engineered for fast mixing times to increase production.
- Available in a wide range of configurations to suit customer requirements.

Ready-mix trucks

- An adjustable sub-frame allows the ready-mix drums to be mounted on a wide range of truck chassis.
- Constructed using wear-resistant steel for long drum life.
- The ready-mix drum design is suitable for wet batching or Karoo dry batching plants.
- PMP hydraulic and gearbox system for easy part availability and reduced down time.

Supplied by PMSA in South Africa. Our professional and experienced technical support team will provide you with the assistance you require. Our comprehensive spare parts facility enables us to provide immediate dispatch globally. E&OE. [Rev_2_2021]
